ALTURNAMAT®

GROUND PROTECTION MAT

PRODUCT INFORMATION BROCHURE

Checkers™ AlturMat® is a high load capacity mat boasting an aggressive diamond plate tread design and a high load capacity ideal for use over soft or sensitive ground conditions in the construction, civil engineering, ground work, and events industries.

These rugged mats are made of 0.5" thick polyethylene making them virtually indestructible. AlturMat® can withstand loads of up to 120 tons*, and its flexible construction means that these mats will follow the contours of the ground to deliver a highly effective access solution over undulating or sloping ground conditions.

Weighing just 86 lbs at its maximum size and just 21 lbs at its smallest, AlturMat® can be easily deployed and maneuvered without any specialist equipment with the added optional convenience of strategically positioned hand holes.

AlturMat® can be connected together using our Turn-A-Links connectors to create a secure trackway or workpad.

- **100% recycled High Density Polyethylene (HDPE)**
- **Diamond cleat tread surface provides impressive grip**
- **Optional hand holes for easy manoeuvrability**
- **Supports loads of up to 120 tons***
- **Available in black or clear**
- **Connector options**
- **Connection points at each corner of the mat**
- **Man-deployable**
- **Low profile VersaMat® or smooth surface also available**
- **Contours to different ground conditions due to its flexible construction**

PRODUCT OVERVIEW

AlturnaMat® is a ground protection solution with diamond cleat tread and a load capacity of up to 120 tons*. Lightweight, flexible, and durable, the AlturnaMat® is available in a range of sizes and is ideal for use in construction, civil engineering, ground works, and event industries.

Material: 100% Recycled HDPE

- Range of sizes available
- Maximum weight 86 lbs
- Load bearing capacity 120 tons*
- Diamond cleat surface tread
- Optional hand holes for easy maneuverability
- Available in black or clear
- Limited lifetime warranty

MODEL: AM48

Load bearing capacity is subject to ground conditions. Sizing is subject to a manufacturing variance of +/- 5%.

APPLICATIONS

- Civil Engineering
- Construction
- Military Sites
- Landscaping
- Infrastructure and Utilities Maintenance
- Transmission
- Oil and Gas

SPECIFICATIONS

ROUND TURN-A-LINKS

MODEL: RTL-D-G

These round connectors can connect two or four AlturnaMats® to create a temporary work site or walk way.

FLAT TURN-A-LINKS

MODEL: FTL-D-G

These flat connectors can connect two or four AlturnaMats® to create a temporary work site or walk way.
