MUDTRAK®
GROUND PROTECTION MAT
PRODUCT INFORMATION BROCHURE

The Checkers™ MudTrak® is a ground protection mat. To get the job done, first you have to get to the job site. Whether on mud, sand or swamp, MudTraks® will take you and your equipment where other mats and plywood can't. Designed with a solid fiberglass grid structure that channels tire load throughout the mat, MudTraks® sets the industry standard for elite, portable roadway systems. If the ground can support a man walking, MudTraks® will take the truck in. The strength, durability and longevity you need to get through the harshest terrain are what you'll find with MudTraks®.

- **Easily handled by men in the field**
- **Fits in the back of a pickup truck**
- **Rope handles for easy lifting**
- **Steel connectors available for simple installation**
- **Off-white color keeps mats cool in the heat so they will not damage lawns**
- **Textured on both sides for aggressive traction**
- **Multiple sizes available**
- **Does not conduct electricity**
- **Peak flexural strength of 63,000 psi**
- **Super strong, lightweight fiberglass panels**
- **Reduces 75 psi tire load to 11 psi**
- **Bends, but does not roll up or break**
- **Handles axle loads of 30,000 lbs in off-road conditions**
- **Ground psi substantially lower than plastic, plywood or planks**

PRODUCT OVERVIEW

The **Mudtrak®** is a ground protection mat with a load capacity ranging between 17.5 tons and 50 tons depending on the size of the mat. It features a grid structure tread pattern and a durable fiberglass construction. It is designed to create temporary road ways, walk ways and work sites.

Material: Fiberglass

- 45" x 96" x .4"
- Usable surface area of 3 sq. ft.
- Weight 103 lbs.
- Grid tread
- Off white color

MODEL: N4572HDS

APPLICATIONS

- Utilities
- Drilling
- Structural Movers
- Construction
- Landscaping
- Cemeteries
- Environmental
- Oil and Gas
